

SEASON SUMMARY OF MAINE LOON PAIR OBSERVATIONS

Observer Name(s): _____

Lake Name: _____ Territory or Pair Name _____

SEASON SUMMARY: *(As information becomes available, fill in as much information as possible to “tell the story” of loon productivity and survival on your lake)*

Ice-out date: ____/____/____ First Loon Arrival Date: ____/____/____ Total # of Observers: ____

Was this a normal year for rain and lake levels? *(If no, please explain in comments section below):* Y N

NESTING INFORMATION		SURVIVAL		Comments
Nest Location <i>(island, shoreline, marsh, raft, cove, unknown. Please mark known locations on map)</i> <i>Is it a Raft or Natural Nest?</i>		# Chicks surviving at least 6 weeks after hatching		
		Date of last chick sighting	__/__/__	
Date started sitting on nest <i>(known or approximate, MM/DD/YR)</i>	__/__/__	If pair re-nested, when? List date(s) <i>(known or approximate)</i>	__/__/__ __/__/__	
Total # of eggs laid by pair <i>(from all nesting attempts)</i>		Date(s) of any egg losses, or chick or adult deaths	__/__/__ __/__/__	
Date first chick seen/reported	__/__/__	(Approx.) date of any nest failure	__/__/__	
Date 2nd chick seen/reported	__/__/__	Known or suspected cause of nest failure or chick or adult losses <i>(e.g., avian, land, or aquatic predator, loon intruder, nest flooding from rain, water mgt. or wake, human intrusion, etc.)</i>		
Total # chicks hatched by the pair				

ADDITIONAL INFORMATION

Known Eagle Nests in Territory _____ Signage at boat ramps/landing(s)? Y N
 # Eagle Perch Trees in Territory _____ Signage at nest site? Y N

BACKGROUND INFORMATION: *(Please summarize any information you can obtain about the pair’s productivity in the last three years such as approx. nesting & hatch dates, known nesting successes or failures, chick and adult survival, known/suspected cause of death or nest failure, changes in nesting locations, incidents, etc. Also report any observed or reported changes in number or behavior of boaters and lake users, intruding loons, etc.).*
