

FALL EDUCATION PROGRAMS

at Fields Pond Audubon Center

216 Fields Pond Road, Holden ME

(207)989-2591 | fieldspond@maineaudubon.org | maineaudubon.org/fieldspond

Bring the excitement of Maine's natural wonders to your students this fall! We offer hands-on science programming at both our Fields Pond Center or at your school site (indoors or outdoors!), and can design a program around your curricular needs, aligned to Next Generation Science Standards. Learn more about these programs on our website, maineaudubon.org

FOR STUDENTS

Watershed Stewards

Engage your students in your local watershed through STEM-based activities both indoors and outdoors. (Grade Level: 2 and above)

Stream Explorers

Provide your students with the opportunity to be a community scientist, collecting environmental monitoring data for Maine's Department of Environmental Protection. (Grade Level: 4 and above)

Nature Explorers

This program provides structured yet flexible activities where young children can develop positive nature experiences through hands-on exploration, art, stories, and songs that create a sense of belonging in natural spaces. (Grade Level: pre-k-1)

Secrets of the Forest

Hands-on forest ecology helps students understand how healthy forests support healthy wildlife. (Grade Level: 2 and above)

Lake Stewards (only at FPAC)

Maine lakes are critical to environmental health of both people and wildlife. Through this program, students collect hands-on water quality data while in boats out on Fields Pond, helping track environmental changes over time. (Grade Level: 8-12)

FOR EDUCATORS

Aquatic WILD **Aquatic WILD™**

Tuesday, Oct. 27
8:30 am–3:30 pm

Aquatic WILD is a hands-on interdisciplinary STEM curriculum focused on aquatic and wetland wildlife, water resources, and ecological concepts. Perfect for classroom teachers meeting science standards while incorporating math, language arts, and social studies, participants will earn professional development credit hours while exploring both indoor and outdoor learning opportunities.

STATEWIDE **ONLINE PROGRAM**

Curious By Nature (FREE!)

Wednesdays, Sept. 23, Oct. 21,
Nov. 18 | 9:45–10:15 am

This program connects students in grades 3–8 across Maine with working naturalists and environmental professionals through live, interactive presentations. Each session features a 15–20 minute presentation with visuals about the presenter's work and its environmental impact, followed by a 10–15 minute Q&A where students can ask questions and engage directly with the speaker. Sessions are recorded and added to Maine Audubon's growing catalogue of previous programs, available statewide for asynchronous access.
